

Coastal Land Loss Mitigation Matrix

Team Members: _____

Instructions: Consider the seven mitigation projects that you reviewed in the matching game. Complete the following chart using information from the game and the project pages. Rank the projects in an order based on the factors you feel are the most important (i.e. cost, time to complete, etc).

Project Description	Average Cost	Timeline	Benefits	Constraints

Weigh-in:

What criteria did you use to rank the mitigation projects? Cost? Benefits? A combination of factors? Why?

What other factors would you like to have considered that were not available in your resource materials?

Which mitigation project seems the most cost effective? Why?
